PREFACE

THE African and Asian coins offered for sale in this catalogue form one of the finest selections to be seen on the European market for many years. The collection itself comes from the United States, so London, being the centre for Oriental works of art in general, has been chosen to auction such an important consignment.

The first section comprises 180 gold coins, of which the most outstanding pieces are of Chinese, Japanese and Persian origin. The silver coins section opens with several very desirable crowns from Africa: Comoro, Madagascar and Zanzibar, mentioning only the highlights! Progressing to Asian silver, there is an almost complete collection of Cambodian coins. However, the chief interest of this sale is undoubtedly the Chinese silver dollars, which are particularly strong in Republican and Provincial issues. Chinese Turkestan is represented by over 50 pieces of all denominations. This is followed by a number of Korean patterns and some rare Japanese yens.

The final section of the catalogue is devoted to Primitive Money, where we find some interesting Chinese sycees and a complete run of Siamese bullet money. It can also be pointed out here that most of the early North Siamese pieces of tok money are the actual specimens illustrated in Kneedler's article in the "Studies of Old Siamese Coins, 1937".

COIN CATALOGUES

On the average we issue twelve Coin Catalogues each year, some of which are usually of sales of important collections.

CATALOGUE SUBSCRIPTIONS

PRE-SALE CATALOGUES, frequently illustrated, are normally posted to subscribers about three weeks prior to the date of Sale.

PRICED CATALOGUES (not illustrated) are issued after each Sale with the prices realised printed in the margin opposite each Lot, thus giving at a glance a reliable guide to values. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading.

The Priced Catalogues are posted to subscribers as soon as ready, usually about three weeks after the date of Sale.

Subscription Rates

(*commencing from* 1*st January*)

Pre-Sale Coin Catalogues ..... 10s. 0d. per annum

Priced „ „ ..... 30s. 0d. „ „

(Pro rata reductions for new subscribers commencing after 1st January)

All subscriptions expire on 31st December, and renewal reminders are issued. Catalogues of past Sales cannot be supplied.

AIR MAIL

To allow subscribers resident outside Europe time to submit postal bids, Pre-Sale Catalogues will, if desired, be sent by Air Mail. Air Mail postage is not, however, included in the Subscription Rate and must be borne by the subscriber. In such cases an additional £1 should be sent as a deposit and we will advise when this is exhausted.
